

Neta Scientific, Inc. remains fully operational. Our team is here to support YOU!

March 23, 2020

Dear Valued Partner,

The Neta Scientific, Inc. team would like to extend our heartfelt thoughts to all those impacted by COVID-19 and our appreciation for the healthcare and scientific community for their expanded efforts in preventing the spread of the pandemic. Throughout these challenging times, our team remains steadfast in our support of our customers, supply partners, staff and their loved ones, and our community.

On March 21st, the New Jersey State Governor, Phil Murphy, signed an executive order for all NJ residents to “stay-at-home” and to “indefinitely” close all non-essential businesses. Due to the nature of the products and services we provide, Neta Scientific, Inc. has been identified as an essential business. Therefore, we will maintain our normal work schedule. As “Essential Critical Infrastructure Workers” with an integral role in the Pharmaceutical and R&D industries, our team remains fully operational, including our Warehouse Operations.

Neta Scientific, Inc. leadership continues to prioritize the health and safety of our employees, customers, and suppliers. Therefore, we have updated our safety procedures to the current federal guidelines:

- Implemented work-from-home when possible.
- Elevated cleaning and disinfecting procedures in our office and warehouse.
- Practicing social distancing in the office.
- Practicing coughing and sneezing etiquette and handwashing.

We will continue to monitor the government guidelines and will provide updates regarding the supply chain as they are forthcoming. If you have questions, please feel free to contact us at (800) 343-6015 or via email at sales@netascientific.com.

Thank you for your partnership and support. Be well and stay safe!

Sincerely,

Dragan Karajovic
