

**Neta Scientific, Inc. remains fully operational. Our team is here to support YOU!**

May 20, 2020

Dear Valued Partner,

Throughout the COVID-19 crisis, Neta Scientific, Inc. has remained fully operational while maintaining health and safety as our continued priority. We are doing our part to minimize impact by providing products and support to our staff, customers, and supply partners.

In solidarity with the global community, we extend our gratitude to the healthcare and frontline workers fighting to slow the spread and our heartfelt thoughts to all those affected by the impact of COVID-19.

The executive order dated March 21<sup>st</sup> and signed by New Jersey Governor, Phil Murphy, remains in effect. We continue to monitor government guidelines and uphold the following safety procedures:

- Maintain work-from-home when possible.
- Provided Personal Protective Equipment (PPE) to staff for on-site use.
- Elevated cleaning and disinfecting procedures in our office and warehouse.
- Practicing social distancing in the office and warehouse.

Neta Scientific, Inc. leadership is determining best practices and preparing a plan for our staff to transition from remote work to a safe return to the office. We will provide updates regarding guidelines and the supply chain as they are forthcoming. If you have questions, please feel free to contact us at (800) 343-6015 or via email at [sales@netascientific.com](mailto:sales@netascientific.com).

Thank you for your continued partnership and support. Be well and stay safe!

Sincerely,

*Dragan Karajovic*
